WOMEN'S INSTITUTE DONATE FLAG TO MUNICIPALITY

The Women's Institute here in Minden have donated a Canadian flag to the Municipality, which is to be erected on the Municipal building, or on the grounds.

At council on Wednesday, June 8th, Mrs. Macarthur and Mrs. Sears presented the flag on behalf of the Women's Institute, to Council.

This donation along with the flowering Crab Trees the Institute have planted on the north side of the river, here in Minden, are Centennial projects.

GOOD CATCHES IN GULL RIVER

Two good catches were reported this week in Gull River. Steve Berry, Minden, caught 19" Rainbow trout and Kin Watts, Toronto, a 17" Speckle trout.

COMMUNITY AND MINDEN MAN MAKES COVER OF BOOK

The words of Minden, Ontario, and the picture of Mr. Gordon Austin, have been printed on the cover of the book, "The Prairie Overcomer".

This publication has a circulation of over a million copies.

Mr. Gordon Austin, is the son of Mr. and Mrs. Jim Austin, of Minden, who graduated from the Prairie Bible Institute, in Three Hills, Alberta, last May. His picture along with the imprint of his certificate for graduating, appears on the cover of this months publication of the Prairie Overcomer.

Mr. Austin is presently employed at Mr. Bob MacBrien's Hardwear store here in Minden. Mr. Austin will take up his Missionary work this fall when he will travel to Africa.

LETTER TO THE EDITOR

School Board Explains The Facts On School Issue

June 14th, 1966

Dear Sir:

In a recent issue of "The Minden Progress" an article was presented in which the writer was disappointed in the dimensions of the general purpose room (sometimes referred to as a Gymnatorium) — part of the addition to the Archie Stouffer School in Minden. We would greatly appreciate it Sir, if you could find room to publish this letter in your fine newspaper. It may help to clarify a few points of interest to residents of the community.

Certain facts are apparently not known by the public, although any member of the school board would gladly have given this information if asked. Firstly, the general purpose room is not a gymnasium. This is dictated by provisions in the grant structure. There is no approved grant for gymnasiums as such in schools of our size. The maximum size approved by the Dept. of Education for the general purpose room (for a twelve room school) is 3000 square feet. The maximum allowable floor space for auditorium is 2400 square feet. Our auditorium will contain an area of 2397 sq. feet and the stage and wing rooms will occupy approximately 564 square feet, for a total of 2961 square feet. It will be 16 feet from floor to ceiling. The total addition will contain as well, two classrooms, two change rooms and one reference library, which latter will double as a secretary's office and board-room.

Secondly, the "Gymnatorium" although not regulation size for tournament games, is quite adequate for the purpose of conducting a physical education program in the school, as well as permitting organized recreational activities by adult groups in the School Area.

It should be noted that members of your school board visited Barrie, with Mr. Ward our Public School Inspector, to see one of the latest model gymnatoriums, for design ideas. Some of these ideas are incorporated in the plans for the new addition to the Archie Stouffer public school. Your Board has spent many many hours of study and careful consideration regarding the planning of this new addition and hopes

(Continued on page 11)

Minden Nursery School Association Held Annual Meeting June 8th

Mrs. Earl Palmer Elected President 1966-67

The annual meeting of the Minden Nursery School Association was held on Wednesday, June 8th, 1966 at St. Paul's Anglican Church.

After the minutes of the last meeting were read and approved, the Treasurer gave a report. Reports by the President and Teachers, Mrs. J. Phillips and Mrs. Reginald Fitz-Gerald were given. The following officers were elected: President, Mrs. Earl Palmer,; Vice-President and Public Relations, Mrs. J. Hatkoski, Secretary-Treasurer, Mrs. G. Walker. A period for general business followed discussing future plans for the school.

Teacher's Report 1965-1966

Mrs. June Phillips presented the following teacher's report:

The pre-school curriculum is not academic in nature. It is a body of experiences promoting the child's total development rather than a bod of knowledge he must acquire. The nursery school programme must not be thought of as a way of occupying a child's time, but as an important experience in his or her life contributing to his or her gradual development.

Throughout the year we have striven to develop physical skills and co-ordination through various games and activities. Through "Show and Tell" each child has been able to express himself to the group thereby developing valuable language skills. They have also expressed themselves imaginatively through the use of crayons, chalk, paint, pencils and various other media.

There has been vast improvement in all children in getting along with others, taking turns, sharing, accepting responsibility, acting independently and having respect for the feelings and property of other people. These things have been learned incidentally through experiences, circumstances and activities and games designed to promote the same.

Mrs. Marilyn Stouffer has awakened their sense and appreciation of music and rhythm. Most children have sung alone on occasion and this is a very big undertaking for many.

With the whole programme revolving around stories, music, conversation, art activities, nature study and planned and free play activities, an atmosphere conducive to the healthy development of each child has been created.

There are many individual differences in each child's mental, physical, emotional and social development. No one child can be measured against another. I feel each child has derived benefit from the experience.

This concluded Mrs. Phillip's report.

The first year has been most successful. It is the intention of the executive that the school will continue for he school year 1966-1967.

BEAVER GIVING MUNICIPALITY PROBLEMS

The eager beavers throughout the Municipality of Anson, Hindon and Minden are creating problems for the Road Superintendent, Mr. Earl Hewitt. The dams which the beavers build are creating flood waters which are running over some of the roads throughout the Municipality.

On Wednesday, June 8th, the council decided to take action on this problem, and it was moved by Roy Windover that the Department of Lands and Forests be contacted. Council are requesting an investigation by the Department on the damage being caused by the beaver within the Municipality, along and near road allowances. Steps will be then taken to remove the beaver and destroy the dams.

GO-KART RACING CHAMPION GRANDMOTHER RETURNS TO JOHNSON'S TRACK, SUNDAY

Go-Kart Racing Grandmother Mrs. Edith Bentham returns to Johnson's track on Sunday afternoon. She will challenge anyone to a race. This should prove very interesting. Will anyone match their skills against this 60 year old speedster?

Centennial News

St. Paul's Anglican Church

It is our privilege and honour to welcome to this community of Minden, the Right Reverend Henry R. Hunt, Suffragan Bishop of the Diocese of Toronto, who will be our guest at the 11 a.m. Service of Confirmation or Laying on of Hands with Prayer those that are Baptised and come to years of Discretion. (Acts of the Apostles C8:4f and C19:1f).

Someone may wonder what Confirmation is all about! Quite simply, it is God's gift of Himself to us and our thankful acceptance of this gift. Most often we talk about Confirmation as the time when a person receives the gift of God's Holy Spirit, that is given to us so we may grow, and increase, and develop, and become strong worshipping Christians. The words the Bishop will use as he confirms: "Defend, O Lord, this thy Servant with thy heavenly grace, that he may continue thine for ever; and daily increase in thy Holy Spirit, more and more, until he come unto thy everlasting kingdom." Those who receive this great gift of Confirmation will realize that it is not much good accepting it if afterwards they do not do anything about it. No gift is of any use if it is not used! Thus, in Confirmation God offers to us His power in which He gives us strength to be grown up Christians. In other words, God, Himself, through the efforts of our Lord Jesus Christ, comes to dwell in the hearts and minds of His people, guiding and strengthening us as we let Him.

Everyone in the community is invited to attend this Service Sunday, June 19th, at 11 a.m. in St. Paul's Church, at which time these candidates will be presented to Bishop Hunt: Darlene Austin, Glen Baker, Ian Campbell, David Francis, Judith Francis, Foster Hewitt, Irma McKelvey, Louise Pritchard, Bonnie Stinson, Mary-Ellen James, Robert Austin, Marilyn Austin, Shiela Austin, Diane Booth, Douglas Eastman, Dorothy Eastman, Gary Gartshore, Roger Hogg, Wilfred Lahay, Thomas Stephen, Maxine Stephen. Following the Service the candidates, their parents, and friends, will meet with Bishop Hunt in the Parish Hall where the ladies of the Church will provide a reception for all who can stay to meet the Bishop and these new Church members. This will certainly be one of the highlights in our Centennial programme which you will find set out herein:

Sunday, June 19th — Rt. Rev. Henry R. Hunt, Suffragan Bishop of Toronto. Service of Confirmation or Laying on of Hands.

Sunday, June 26th — Mr. Bill Witham, Lay Reader.

Sunday, July 3rd — Rev. George C. Fenning.

Sunday, July 10th — Mr. Bill Witham, Lay Reader.

Sunday, July 17th — Reg. Soward Esq., Q.C., Chancellor of Toronto Diocese.

Sunday, July 24th — Rev. Thomas Gracie.

Sunday, August 7th — Rev. Frank Edney.

Sunday, August 21st — Rev. Vince R. Browne.

Sunday, August 28th — Rev. Canon Robert McLaren.

Sunday, September 4th — Rev. C. Allan Johnson.

Sunday, September 11th — Rev. John Coneybeare.

Sunday, September 18th — Venerable Archdeacon Harold Johnson.

Sunday, October 23rd — Rt. Rev. George B. Snell, Bishop of Toronto Diocese.

Dedication of Centennial Plaque in Church. All Services will be held at 11 a.m. in the Church A Reception will follow the services in the Parish Hall.

The Nations Business

by

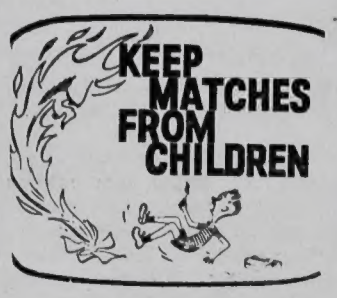
WILLIAM C. SCOTT, MP

The manpower strength of the Canadian Armed Forces now stands at its lowest point since 1953, but the government plans announced this week indicate, that th eforces, though smaller in number are to be better housed in facilities which will dwarf the Parliament Buildings. Announcement of the new National Defence headquarters, the cost of which has been estimated as high as 100 million, was made by Public Works Minister McIlraith. It comes at a time when other work projects are being cut back as a result of Finance Minister Sharp's "ban the boom" budget.

The headquarters which has been described as a "Canadian Pentagon" will house the administrative staff for the armed forces which Defence Minister Hellyer has been working so hard to integrate in an effort to cut down on defence expenditures. Plans which means that the complex call for it to be 38 stories high, will dominate the Ottawa skyline.

Meanwhile the strength of the forces continues to decline. Figures released this week show that despite the government's re-engagement bonus and a promised pay increase, the effective strength now stands somewhere between 103,000 and 104,000 men. Not since the early 1950's when the country's population was 5 million less than it is now, has the figure been as low. Reports indicates that there is a serious recruitment problem, and that all the Canadian infantry battalions are under strength. The problem has reached the point where the forces are now accepting recruits whose educational standing does not meet requirements and are sending them to school. The problem, at least as far as the government is concerned, does not appear to exist in the recruitment of administrative personnel. Testifying before th eCommons Defence Committee, the Controller General of the Armed Forces and the Deputy Minister of National Defence presented figures indicating that the Headquarters Staff now number 5,515. The proposed new Defence Headquarters will house a staff of 8,000.

The House of Commons spent much of its time this week in Committee of Ways and Means and concerned itself with the raising of money for public use through the imposition of taxes Through the medium of this Committee the House debates the proposals put forward by the government for the financing of its operations. Two modifications in the government's proposals of three months ago were made by Mr. Sharp himself. These changes have almost no effect at all on the average taxpayer, an ddeal with the extension of low taxes for deferred profit-sharing and stock option plans, and the exemption of certain investment companies and charitable trusts from the 5 per cent refundable tax on cash profits. The ordinary taxpayer who continues to be plagued by an increasing cost of living, still faces the prospect of higher taxes when he makes out his return next year.



Tenders Wanted

Closing date June 22nd., for tenders, for crushing 5,250 tons of five - eight inch crush. Crush to be applied.

Lowest or any tender not necessarily accepted. All tenders to approval of D.H.O.

For tender forms apply Sidney Jennings, Clerk Treasurer, Township of Snowdon, Gelert, Ontario.

Two weeks' vacation with pay

The Ontario Department of Labour on July 1, 1966, will extend vacation pay benefits to all full time, and regular part time, employees in the Province's general and construction industry. You will be entitled to:

- at least one week's vacation with pay each year for the first three years of employment, payment to be on the basis of at least 2% of your pay for all work done during the vacation year, and
- when you have completed 36 months of continuous or non-continuous employment with the same employer you will be entitled to two weeks' vacation with pay. Payment will be on the basis of at least 4% of your pay for all work done during the vacation year.

How does the plan work?

An employee having four years continuous or non-continuous employment as of July 1, 1966 will qualify for two weeks' vacation with pay providing the employee has not already taken a paid vacation during his fourth year of employment.

An employee commencing work on or after July 1st, 1966, will be entitled to one weeks' paid vacation in 1967-68-69. In 1970 the employee would be entitled to two weeks' vacation with pay.

Two weeks' vacation may be granted successively or divided into two periods of one week each.

Only employees in the construction industry will be required to use the vacation stamp and stamp book method of payment.

Regulations and general information pamphlets containing detailed information may be obtained by writing to:

TRADER FOR A WEEK END

This past week end I journyed out of the county into the Kawartha district, and joined three of my old buddies on a fishing expedition. This was our tenth annual pilgrimage to Popular Pines Resort, in Bobcaygeon.

After each one of previous fishing trips I have always been written up as a character as such — I won't go any further. But let me tell you a little of the other three chaps, who make up this hillarious week end each year.

First there is Robert "Rose" Bush, Sports Editor of the Collingwood newspaper, the Enterprise Bulletin. Rose is a notorious character in that town. Everyone from the foot hills of the Blue Mountain to the shores of Georgian Bay, know this gentleman, and had a deal or two with him — and if the truth was ever known, no one has ever beat him on a deal yet. Besides being a sports editor, he is the Justice of the Peace, and also a wheeler-dealer, in iron scrap metal and just about everything he can get his hands on. Being never short of words, and an authority on sports, (according to him), he is always in demand, on radio, when Bill Bennitt of CKBB is broadcasting the senior hockey games.

Then there is Charlie "Seaman" Reid, known throughout the district as the only Collingwood native, to ever make a Hollywood Movie Production. He claims he played next to John Wayne once in making a movie, when he was in the Navy during the war. It was a war picture taken in Halifax. Here again if the truth was known, Charlie was one of a thousand sailors who jumped over the side of their ship for one of the scenes. We all stayed up one night to see him on the late movie, but when the time came for his dabue, there were just too many sailors to pick him out.

However, Charlie today is a successful insurance agent, and some say he has now forgotten those who helped him get to the top?

The final member of the clan is Frank "Red" McCutcheon. Red is another has-been sports hero in that town. And is known throughout the community as a man with money, and is also known as one who never parts with it. Red is a bit of a singer, and his favorite is that old one of Hank Snow's, "I'll never get out of this world alive". Red is also a sports writer for the local paper in Collingwood, and is a printer as well. He is one of those fishermen who likes to ketch 'em — but doesn't like cleaning 'em.

All, in all, we have a good time, and each year look forward with great patients to stage the rhubarb all over again. How many fish did we catch? Only three. Seaman Reid won the trophy put up by that Resort for this party, many years ago, for the largest fish. The fish yarns will now go on, and on, till next year. If there ever was a really big fish caught, it would take too long for the fellows to tell about it.

NEW ROAD MAPS DISTRIBUTED

Distribution of the 1966 edition of the Department of Highways Roads to Recreation folder is announced by Highways Minister Charles S. MacNaughton.

Newest folder, featured by a colorful, pictorial map, is published by the Government of Ontario, through the Department of Highways, in co-operation with the Departments of Tourism and Information, and Lands and Forests.

Highlights of the folder include the listing of 237 picnic areas, 94 conservation park areas, 90 provincial parks, 109 ski areas, 140 historic sites, 16 St. Lawrence Parks Commission sites and in each case a description of their locations. Each facility is marked by special symbols.

The folder is available free from the sponsoring Government Departments, Parliament Buildings, head offices and district offices.

LETTER TO THE EDITOR

June 7, 1966

Dear Sir:

Just a note to say thanks for the nice write-up in your paper. It made me feel like a real hero and also a friend. I met many nice new friends at your May Festival and I enjoyed myself to no end. I hope I may be able to spend many more pleasant times in Minden in the future.

Thanks again and it was nice meeting all you good people.

Sincerely,
Edith Bentham
Racing Grandmother of Canada.

CANADIAN IMPERIAL BANK OF COMMERCE

Here and There

with
FENWICK FINCH

Last Saturday Gord McKay became a member of the Finch Coffee Club — besides being Manager of the Bank, Gord is a literary critic. Handing me a copy of the "Progress" he said, "Fenwick, your stuff is hard enough to read at any time but this last poultice — would you mind explaining it to me."

Reading it over the point became quite evident, either we ran out of space or the "type gremlins" were at work. Somewhere between Ernie and Willard and R. A. Percy we sprung a leak. Maybe when I fill in the spaces it will make more sense — (if any of this stuff ever does.)

Down at the hospital — the sure sign of being ready to leave is NOT chasing the nurses — it's when you start catching them that the good Dr. Griffiths writes out your ticket that lets you go home. Regarding R. A. Percy — he gave a couple of experiences with "ghosts" while down in Newfoundland.

Does that clear things up — ?

The tourists are upon us again — and a kookier bunch of drivers you'll never see. We have accidents up here — but the wonder to me is — we are lucky there aren't more.

Passing on corners, over hills and on curves — across the solid double line — it matters not — some of these characters must be in a hurry to reach the "Great Beyond". This is their business, but when they take some poor unfortunate with them who is neither ready or willing to go — it's too bad.

Motorists in general could do a great deal to cut down these foolhardy drivers if they would report these infractions to the Provincial Police detachments — giving license number and all particulars. The Attorney General's Office could then follow up with a letter outlining the complaint. This letter could be placed on the motorist's file and when he has his accident — and you may be sure he will — his file could be brought out and the magistrate could see that his lack of driving courtesy had been brought to his attention an dthe accident was the result of poor driving ability — not just circumstances.

The latest member to cheerfully join the Finch coffee club was Don "Soup" Campbell — entreprenеur of a construction company by the same name. If that's not spelled correctly — you'll have to look it up — I don't have a dictionary handy.

As Al Jolson used to say — "You ain't seen nothin' yet."

Last week end I went over a new golf course, under construction, I've seen it but I still don't believe it.

Only Al McMullen of Hospitality Inn would have enough imagination to come up with such a goofy set-up. "The Nutty Golf Course" is the understatement of the year. Take for instance hole 2 — "The world's wettest hole", 95 yards — you drive off the water into the water.

It's no use — words aren't edequate enough for this screwy deal — you'll have to see it for yourself — Call Al at Hospitality Inn he'll take you over it.

Speaking of the golf course — the recent Ontario Hydro helicopter Patrol reported a foundation being built near tower No 10 — this turned out to be hole no. 10.

That's all for this eek — as Popeye sez — "I can't stand no more."

Fenwick

COUNCIL WILL SUBSIDIZE MUNICIPAL BURIAL VAULT

The property north of the cemetry was aquired by council through tax registration, council required the property for the purpose of establishing a municipal berial vault. The property is to be deeded to the Minden Cemetry Board for the sum of $1.00.

If this proposal is approved by the Department of Municipal Affairs the Council will subsidize this vault, and it will be for the use of the entire municipality.

COUNCIL TO ERECT FENCE

At Anson, Hindon and Minden council meeting, held Wednesday June 8th, council authorized, the road overseer and the road chairman to arrange for a survey at the corner of Water St. and the Bobcaygeon Road, in co-operation with Mr. Ern Hewitt.

Mr. Hewitt in the past has had a problem with cars driving on his property, to turn around. This has been caused by his property being out past the road allowance. He has agreed with council to establish the right of way by survey and deed the property to the municipality. When established, a low fence suitable to stop vehicles from turning on the lot owned by Mr. Hewitt, will be erected, on that corner.

ANNUAL MEETING HELD FOR C OF C AND RTC

Guests present at the Annual meeting of the Haliburton Highlands Chamber of Commerce and Regional Tourist Council held on Wednesday June 8th, were: Mr. Barry Dobson, newly appointed regional supervisor and Mr. Donald Goodwin of the Ontario department of Tourism and information: District forester A.E. Walroth and fish and wildlife supervisor Percy Swanson, Ontario department of Lands and Forests, Lindsay; Deputy-chief ranger Sam Shields of Haliburton; Mr. Gary Agnew, Warden of the Provisional County of Haliburton; Messrs. David Logan and Douglas Oke of Lindsay.

Highlights of the meeting: The report given by president Verne Graham and his talk which stressed the necessity of preventive measures to combat possible pollution of our waters before the problem developed. The suggestions of Douglas W. Vanderburgh of Cedar Lodge, Balsam Lake, speaker of the evening whose topic was "What's Ahead For Haliburton — Or — What's Up Front for Ontario".

There was lengthy discussion on "No Deposit-No-Return" Bottles and the alarming increase of broken glass already being found on our highways, streets, parks and swimming areas. As glass does not deteriorate, this litter will become a major problem in the very near future.

The newly elected board of directors for the year 1966 - 67 is: Mrs. Marie Cox, Mrs. Richard Kirkwood, Messrs. Murray Agnew, Max Archer, Gordon Bar, Curry Bishop, Ronald Curry, Verne Graham, Bruce Henry, John Hill, Harold Kennedy, Mervyn Robertson, John Smith, Ronald Tyler, Frank Waters, and Kenneth Wilson.

"WHAT'S COOKING"

FOR WOMEN ONLY

Laden with trousseau items, wedding presents, shower gifts and all the other romantic accountrements of a June wedding, this is the month when thousands of brides march down the aisle — into a new life as wives and homemakers.

For some brides, housekeeping may become a chore. Most, however, soon become experts — particularly in cooking — more particularly if they make use of the many kitchen time-savers now available.

For a bride who is new to the culinary arts, the modern pressure cooker is a "must". It cooks just about anything. It also produces results — and flavour — with a minimum of fuss. For example, a hearty pot roast, which normally requires hours of simmering can be prepared in a pressure cooker in exactly 35 minutes. Fancy vegetables take only one or two minutes; fancy desserts as little as three minutes.

Equally important to the new bride — pressure cookers save money by producing consistently tangy fare from less expensive cuts of meat. Pot roasts, round steaks an dstewing beef cooked by concentrated steam pressure taste like million dollar steaks.

How many cooking utensils should a bride have? Home economists say a well-equipped kitchen includes 37 utensils ranging from stock pots, sauce pans, fry pans and roast pans to specialized utensils such as egg poachers, electric chicken fryers and even super-sized eight cup muffin pans.

However, while statistics show that most brides round out their collection of utensils within the first two years of marriage they usually start with considerably less than 37 utensils, adding to the collection as their cooking experience broadens.

There are, however, some items that a bride simply cannot do without. The first and most essential acquisition should be two fry pans — one for frying large steaks, whole fish or complete fry pan dinners while the smaller pan is ideal for frying two or three hamburger patties or bacon and eggs. A new bride needs at least two standard stock pots for boilingvegetables and soups. She should have a sauce pot for sauces and gravies, and for souffles and special sauces — a double boiler. For entertaining or Sunday dinners, a roast pan is required.

Aand after the new wife prepares her lordly feast, then comes the dreary task of cleaning up. At least it used to be dreary back in grandma's day. But now we have no-stick, no-scour Teflon coated utensils. All they need is a quick swish in warm sudsy water and — presto — the drudgery is gone

NOTICE

Rockcliff Road Association, an Ontario Company, hereby gives notice that it has, under Section 7 of the Navigable Waters Protection Act, deposited with the Minister of Public Works, at Ottawa, and in the office of the Registrar of Deeds for the Provisional County of Haliburton at Minden, Ontario, a description of the site and plans of a bridge erected over the western end of Koshlong Lake in the Township of Glamorgan and being in Lot 6 of Concession 15 of said Township.

And take notice that after the expiration of one month from the date of publication of this notice the said Company will under Section 7 of the said Act apply to the Minister of Public Works for approval of the said site and plans.

Dated this 8th day of June, 1966.

Rockcliff Road Association,
by its solicitor,
Donald H. Mills.

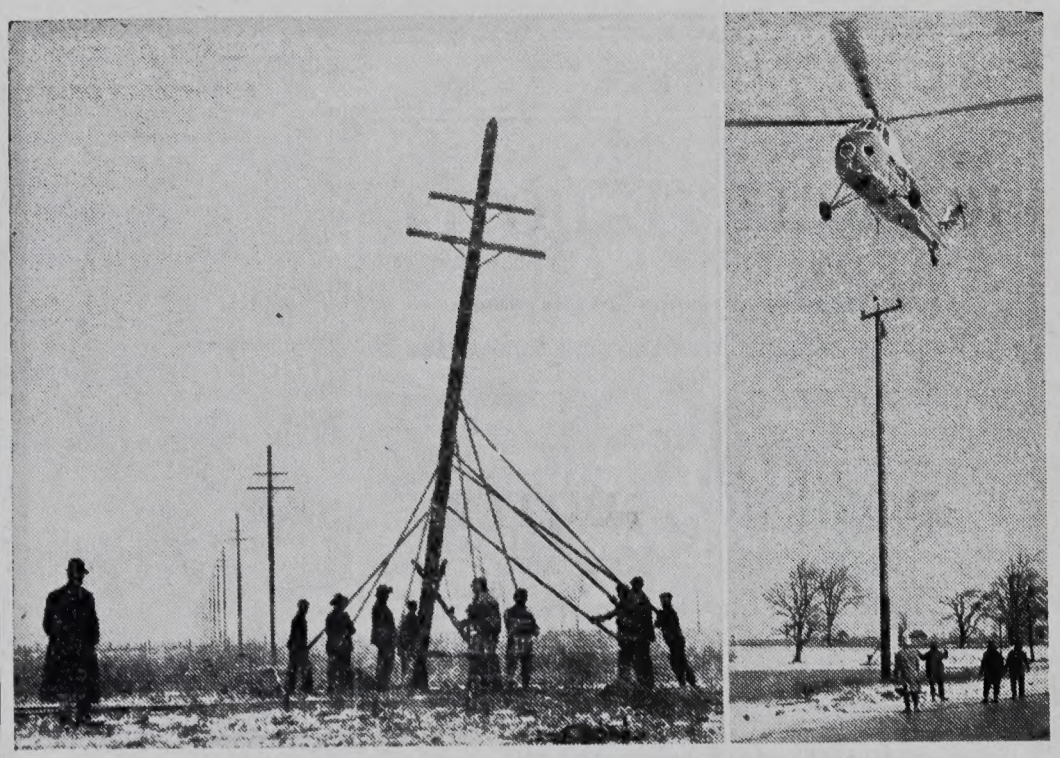
MINDEN PROGRESS



Diamond Jubilee — Ontario Hydro marks its 60th birthday this month. Reflecting the tremendous changes which have taken place in the electrical industry, helicopters and other mechanical equipment have replaced the pike poles, strong backs and derby-wearing foremen involved in line construction in the early days of the century. Ontario now operates 68,000 miles of line — nearly enough to circle the earth three times . The 358 municipal electrical utilities and Ontario Hydro serve 2,100,000 customers across the province. In six decades, power resources have increased from 7,400 kilowatts to more than 8,000,000.

Scouting Corner

with Bill Payne

It has been some time since this column has appeared and it has been due to lack of hours in a day on my part.

The Scouts and Cubs along with their leaders and the group committee were guests of the Forestry School last Sunday. This excellent day was arranged through the kindness of our MPP Glen Hodgson. Glen has always been interested in youngsters and has helped the different youth groups throughout the county on several occasions.

Mr. Quimby Hess, the dean of the forestry school, took time out on what is normally his day of rest to escort the boys on a tour of the school and a hike to the ranger tower.

Films were shown and a great number of interesting classrooms were visited and the work explained to the boys. The Scout program is a minute form of what takes place at the forestry school and the boys and their leaders thoroughly enjoyed an extremely fine day.

A supper was served to the group through the courtesy of Mr. Glen Hodgson and Mr. Hess and the 1st Minden Group wishes to extend our sincerest thanks and appreciation for the time and effort taken by these men for a most enjoyable day.

Our thanks as well to the group committee for their efforts and interest in the boys on arranging this trip and the backing of the Scout movement in Minden.

CUBBING

The annual Cub camp will be held next Saturday June 25 - 26th at Lake Ross in the Highlands. Through the courtesy of Cec. Yearwood we are fortunate in having an excellent location for our camp. This will be our sixth camp at this location and we are extremely thankful to Cec for his interest in boys work.

Without the co-operation and generousity of people such as Dave Stamp, Prentice Roads, Lands and Forests, Mrs. Russel Burk, Mrs. Gerry Hicks and many others, our camp would not be a success at all. It is only with the help of these people can we have the good times that we do.

The leaders, Bob McBrien, Spike Moxam and Gerald Hicks has been a great inspiration in working with these youngsters.

Because of being on shift work and not being able to be present at Cub meetings each and every week, I have had to make a very unfortunate decision to step down as Cubmaster of the pack. With the new program that has started in part, and will be in full swing come September it demands that the Cubmaster be in attendance every week in order that continuity in the program will take place.

The group committee have selected Mr. U Moxam (Spike) as the new Cubmaster and I will act as his assistant. Spike has been a tremendous help to the pack and is keenly interested in boys work and he will make an excellent Cubmaster.

My best wishes to Spike on his new position. The job will not be easy but Spike is willing to tackle it just the same.

Bob McBrien and myself will certainly give him all our support and help him do an excellent job.

HORTICULTURAL SOCIETY TO MEET IN OTTAWA

The Ontario Horticultural Association will hold its Sixtieth Annual Convention at Carleton University, Ottawa, on June 23 and 24 it was announced today.

A wide and varied program has been prepared for the occasion with 31 mile tour of Ottawa and the surrounding area featured for Wednesday evening June 22. Thursday's program will include a tour of the ornamental grounds and research facilities of the Central Experiment Farm.

Key note speaker will be Allen H. Seed Jr., Executive Vice President of "Keep America Beautiful Inc." He will take as his subject "Revolt Against Ugliness".

Speaker at the annual banquet on Thursday will be John Fisher. Panel discussions on timely subjects will also be featured at Friday's session.

BIG PROFITS EARNED AT SPORTSMEN'S SHOW

Net profits totalling $134,028 were earned by the 1966 Canadian National Sportsmen's Show and its subsidiary operations, the Canadian Boat Show and the Canadian Winter Sports Show, Frank H. Kortright, President, reported to the annual meeting held in the King Edward Hotel today.

" Our gross earnings from the three shows reached an all-time high of $620,051 but expenses also reached an all-time high.

"It should be noted," the President's report continued "that our net earnings this year were within a thousand dollars of the average earnings over the previous five years."

The first annual Canadian Winter Sports Show in the Automotive Building last November, he disclosed, resulted in a loss of more than $9,000. However, plans are well underway for the second presentation of this Show to be held in the Queen Elizabeth Building, Exhibition Park, from November 2 to 5 next. The 1967 Canadian Boat Show will be held from February 3 to 11 while the Canadian National Sportsmen's Show is scheduled for March 10 to 18.

Haliburton County Library Completes Its First Year

LIBRARY REVIEW JUNE 1966

In January, 1965 the Council of the Provincial County of Haliburton passed a by-law establishing Ontario's second County Public Library. The new County Board was authorized to provide service to the County's ten municipalities with their 8,400 people.

This action culminated a year of effort on the part of the Dysart and Minden Association Library Boards. Since the 1890's these libraries had been functioning on meagre funds — and by whatever they could beg, borrow, or steal! By 1964 each Association was operating on an annual budget rarely in excess of $500. Both had non-functioning boards and only continued in operation because of their faithful librarians, Mrs. Irene Moore of Minden and Mrs. Irene Hill with Mr. Ber Allan of Dysart. Total book stock consisted of approximately 8,000 uncatalogued volumes.

The Minden Association, through the efforts of the librarian and interested citizens, had managed to acquire a modest building of their own. Their book collection, thanks to the occasional fire, contained few books over twenty years old.

It was the responsibility of the new County Board to translate legality into reality. The Board assessed its problems and its own abilities. It was responsible for serving a large county with no incorporated villages and a scattered, small population. There was no strong, central library on which to build. No Board member had previous experience in library work. It would be operating on a small annual budget of about $11,000.

There was one factor in its favour, however. With no experience or precendent to follow the board had no idea what could not or should not be done. The members were willing to experiment. As a result the Haliburton County Public Library System has a few unique features in its make-up.

A contract was negotiated with the Hiliburton County and District High School Board in which both boards agreed to share equally the services and the salary of a librarian. The Library sidestepped local rivalries by renting office space in the centrally located High School building. As it turned out, no qualified librarian applied for the position and Noel McNeil was invited to apply. On May 1st the new County Librarian began work. Mr. Charles Brandon was elected chairman of the new Board. This arrangement has proven to be amicable to both boards and will be extended for another year. (The High School, for the first time with a non-teaching librarian, saw its circulation almost triple).

Both former Association libraries voluntarily relinquished ownership of their books and furniture and had local committees appointed by their Municipal Councils. The High School library was recognized as a branch library for the purpose of receiving book deposits. In this way the Board was giving immediate, if token, service to the whole County.

Realizing that they would be unable to open new branches with a collection of uncatalogued books the Board negotiated to contract service with the Victoria County Library Co-Operative. By this contract Victoria agreed to rotate, every three months, a deposit of 400 books through the existing and new branches and to send a box of 20 books each month to every public school room in the County. No little part of the benefit of this contract has been he availability of the professional advice and assistance of Mrs. Janet Nowakowski and her staff in Lindsay.

At the present time the County System has grown to include six branches (plus the High School branch) and two sub-stations. In each case the municipality appoints a local advisory committee and provides and maintains the library quarters. This was a departure from the precedent established in Middlesex. Haliburton County has a small budget and in order to maintain local buildings would have had to forgo other services. At a future date, perhaps, the County Board will assume maintenance by paying rents.

From May 1st to December 31st, 1965, 2,064 books and nine new encyclopedias were catalogued; 1,019 of these books were new. An estimate based on incomplete records, would indicate a circulation of not more than 6,000 books in 1964. In 1965, 12,280 books circulated through the branches and 17,769 through the public schools. This is an increase of over 500 per cent. All of the books circulated through the public schools belong to Victoria County 5,065 of the Branch circulation was with Victoria County books. This means that although they were presented with a new selection of books every three months, the reading public still increased their use of Haliburton books by some 1,300 circulations!

Haliburton County Library will receive a nadditional grant this year of $3,000 in books from the Lake Ontario Regional Library Co-operative. The growth of library sservice in this county has just begun!

Even if your Aunt Maude leaves you $3,000,000, can you actually do without "Realtor" service when you buy your next home? Perhaps. But just be sure you have an Aunt Maude.

If you don't have money to burn, you'll need the help and assurance that "Realtor" service can give when you buy a home. (Even if you have an Aunt Maude, chances are she got all that money by buying her property wisely. Through a real estate broker.)

SCHOOL BOARD EXPLAINS THE FACTS

(Continued from page 1)

that all ratepayers will watch its progress with interest and take pride in the completed structure.

The architect who designed the new addition is Mr. Stefan W. Sherbowich who has a Polish degree in engineering and graduated from the Oxford School of Architecture. He has membership in the Ontario Association of Architects, The Royal Architectural Institute of Canada, and the Royal Institute of British Architects. We believe he has done an excellent job and has certainly given freely of his time and talents. The Contractor who is building the addition is Mr. M. J. Finn of Peterborough. Mr. Finn built the present Archie Stouffer Public School and we feel he will do an equally good job on this addition.

Although the Board is fully aware of the problems of lunches in the classrooms, the Dept. of Education will not approve this need, for grant purposes, in elelementary schools the size of ours. A lunchroom was considered in the original planning, but your Board felt that it was just not feasible to ask the taxpayers to bear this cost 100 per cent — at this time at least. The problem is, of course, still under consideration. As school communities continue to increase in area, the Department's policy may change, at which time a grant for a lunchroom in our school may be available.

Thank you very much for your kind attention.

The Minden Township
School Area Board.
